Summary

Experienced backend developer with 1.5 years of expertise in Java and PL-SQL/T-SQL. Skilled in building scalable financial applications, optimizing databases, and enhancing system performance. Strong collaborator, delivering high-quality enterprise solutions.

Experience

Craft Silicon Asia | Karnataka, Bengaluru

Associate Software Development Engineer - E1 | 11/2023 - Present

- Developed custom applications and components to address unique business challenges and improve operational efficiency.
- Designed new features for existing applications and implemented them into production.
- Determined the best programming languages and tools to use for future projects and provided recommendations for tool selection.
- Created a software development process and team workflow to ensure future development projects are built in a repeatable, efficient and reliable fashion
- Maintaining company coding standards, best practices, and performance optimization techniques.
- Contributed to the implementation of security protocols to protect sensitive data, ensuring compliance with industry standards.

Projects

- **Clients:** Major Financial Institutions
- Designed and deployed **SQL**-based solutions to enhance data management and streamline financial processing.
- Optimized system performance by refactoring SQL queries, improving application functionality, and reducing query execution time.
- Developed and integrated backend solutions using **Java, JDBC, and Hibernate** to increase operational efficiency.
- Created and optimized complex stored procedures for large datasets, improving database performance and query accuracy.
- Utilized Java JDBC for database connectivity, ensuring efficient data retrieval and updates within the application.
- Leveraged Hibernate for ORM-based solutions, improving data manipulation and simplifying the interaction between the application and the database.

Skills

Java, JDBC, Hibernate, PL/SQL, T-SQL, Git, GitHub, Eclipse, Visual Studio, Microsoft SQL Server

Education

Visvesvaraya Technological University (VTU) | Belagavi, Karnataka

Bachelor's Degree in Computer Science | 05/2023

- Represented college in the State-Level Kho-Kho Tournament
- Passionate about playing chess and problem-solving on CodeChef and LeetCode

Kittel Pre-University Science College | Dharwad, Karnataka

Science | 04/2019
